

Making the Most of the Water We Have: The Future of Water Management in the CRD

A PUBLIC DISCUSSION PANEL

The POLIS Water Sustainability Project and the Division of Continuing Studies invite you to join the students of the *Making the Most of the Water we Have Course* for a panel discussion about the future of water in our region.

This 3 week course will culminate with this engaging conversation with leading water experts who will share their experiences and insights about where our priorities must lie if we are to build resilience and develop water sustainability in our communities.

With Panelists...

- Jon O'Riordan, former Deputy Minister of the BC Ministry of Sustainable Resource Management, "Integrated Resource Management and Recovery - Turning Waste into Resources"
- Patrick Lucey, Senior Aquatic Ecologist, Aqua-Tex Scientific, "Smart, Clean and Green Communities of the Future"
- Susanne Porter-Bopp, Community Water Coordinator at POLIS, "Thinking Beyond Pipes and Pumps"

Moderated by Oliver Brandes, Associate Director of the POLIS Project and Kirk Stinchcombe, Econnics Space is limited so if you plan on attending please RSVP at hendriks.elizabeth@gmail.com

Wednesday, April 28th

8:00-9:30 PM

At the University of Victoria MacLaurin Blding D114
